## INTRODUCTION

**Al-Aqd Al-Mateen** is pleased to introduce itself to you, our valuable potential client.

**Al-Aqd Al-Mateen** was first established and registered in Erbil, Iraq in 2016 under companies House decree No. 12 in 1997.

Historically, the Company's specialty has been supplying, installing and servicing Valves in their many shapes, sizes, brands and origins. However, in the last few years, the company's business has expanded to cover Construction, IT, Electrical Works, Security, Catering as well as HVAC and Heat Exchanging services as well as Fabrication for our business partners.

Over the past few years, the company has grown in size, expertise and client base. We now have a group of experts heading the company, where each of them is a well-known expert in their own rights.

**Al-Aqd Al-Mateen** is working with the local authorities to build a reputable relationship in order to deliver our services to government offices, national and international companies all over Iraq.

We continuously work with the locals to serve them wherever the company has any projects, big or small. It is our belief that we need to support the international clients as well as the locals living around the sites we work at based on the required working HSE and Technical standards, most notably the standards required by Oil and Gas Fields and employee campuses.

The company is registered on the AVL system of Ministry of Natural Resources in Kurdistan Region as well as having registered with The Companies House in Baghdad, Iraq, giving it the right to work in all of Iraq legally and freely.

## WHO ARE WE?

The company is headed by a group of Academic Professionals, who have worked in both the public and private sectors. Each one of the team members has worked in the Oil and Gas, Residential Project Sites, Electrical Sub-Stations, Asphalt, Metal, PVC and Wooden Door Factories, etc.

Moreover, they have each headed projects for governmental, national and international companies. Collectively, they have expertise in Construction, IT, CCTV, Electricals, Pipelines, Valves, Fabrications, Pumps, Heat Exchangers and HVACs, and Chemicals used within the Oil and Gas companies.

All members are fluent in English and Arabic languages, which makes them stand out while dealing with internationals. Hence, the level of understanding the client requirements is much easier.

The team is ready to respond to client queries and requirements within a limited time and are able to deliver projects on-time and on-budget to the highest technical and documentary standards.

The management is capable of putting together a team of technical personnel to work on any awarded projects in order to deliver on target for whatever bespoke or planned projects our clients may have.

Our engineers are all graduates of international universities, and have gained expertise from managing construction, electrical, mechanical and IT/CCTV projects all over Iraq and abroad.

## MISSION

**Al-Aqd Al-Mateen** is a bridge where national and international companies can use to bring the International standard goods and services into their projects. It combines the expertise of its engineers and technicians along with the branded goods and services to deliver the best service to our clients within Iraq and Kurdistan Region.

**Al-Aqd Al-Mateen** has and is continuously building its relationship with many international brands within its scope of work to provide the national and international companies working in Iraq and Kurdistan Region the best brands available around the world at the best prices.

**Al-Aqd Al-Mateen** has a unique approach focusing on project-enhancing solutions while delivering safe, sustainable and successful results. With Al-Aqd Al-Mateen, our client can be assured that only quality goods and services are provided throughout their current project as well as the others.

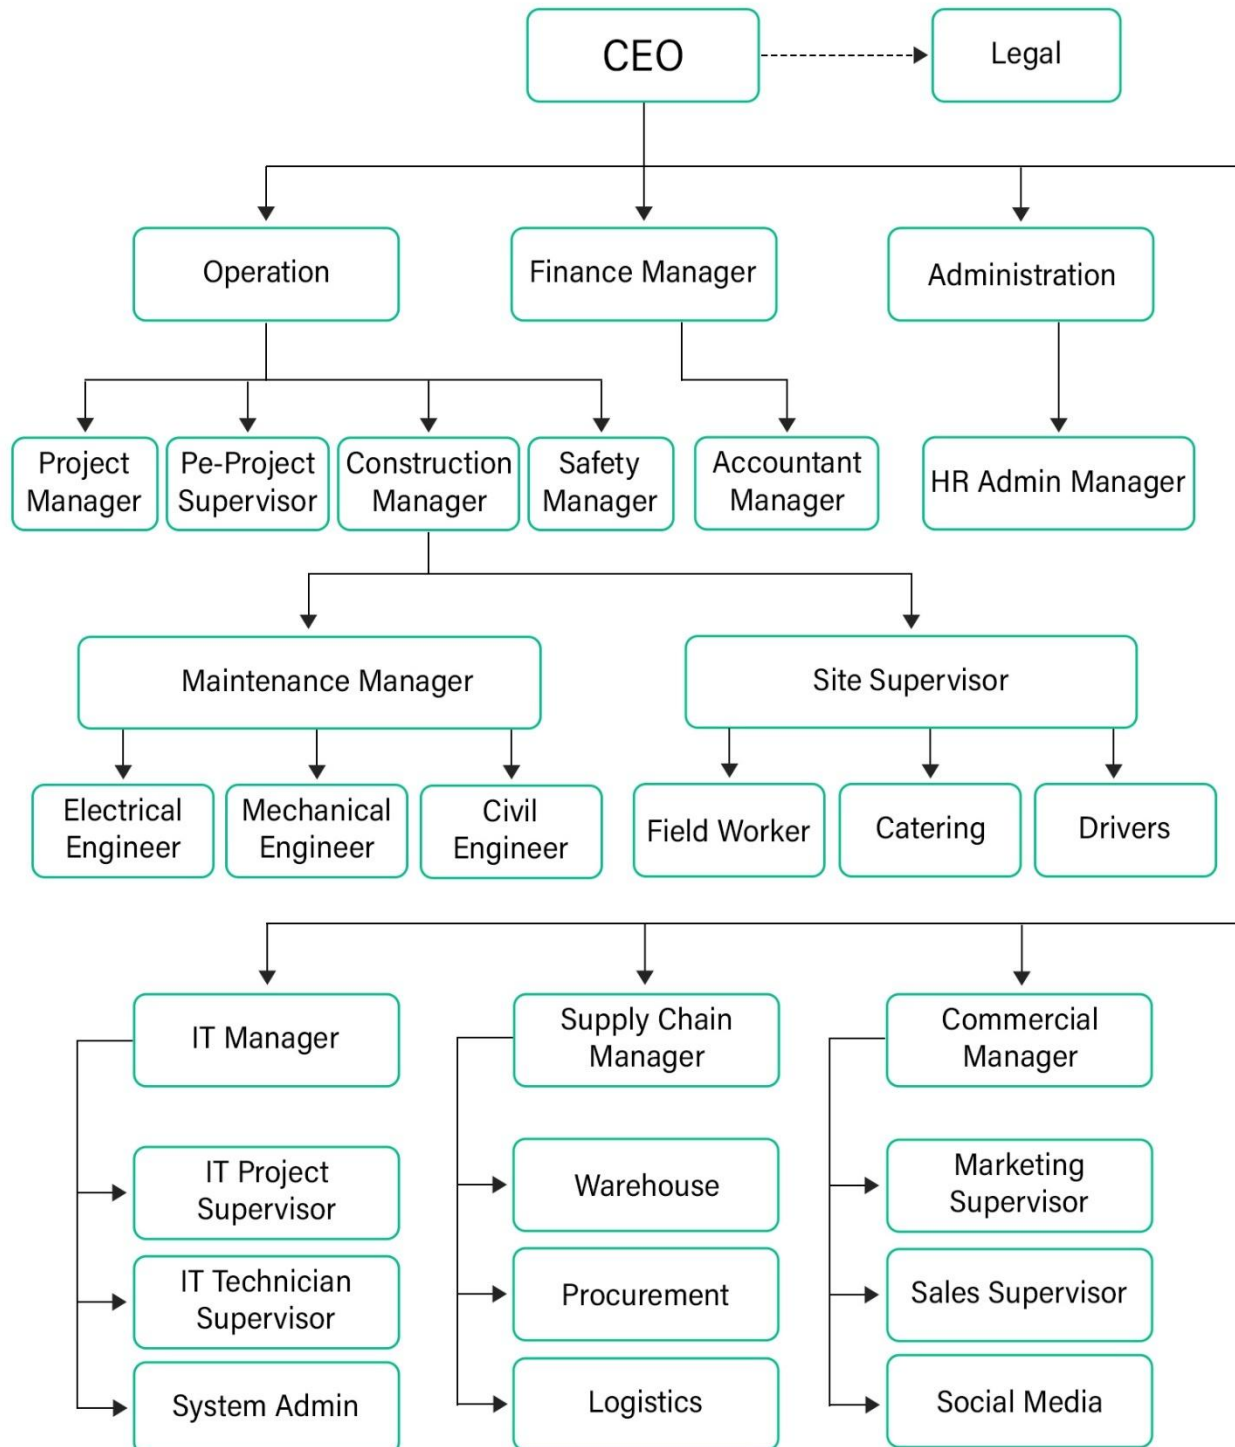

Our safety slogan 'Think Safety, Work Safe' describes not only what we do, but our values and culture. Our most important asset is our people. That is why safety is an integral part of our daily work. Our Health, Safety and Environmental Protection (HSE) Program, makes sure that everyone is responsible and accountable for safety – from senior management to the individual worker.

## VISION

**Al-Aqd Al-Mateen** aims to build long-term relationship with its clients, which in-turn is a win-win deal for both sides. On one hand, the client will be sure of the quality provided and Al-Aqd Al-Mateen would have gained the satisfactions of its clients.

**Al-Aqd Al-Mateen** aims to become the number one company that comes to the minds and hearts of our clients as they embark on a new project as well as being the preferred company to be referred by our client to their business acquaintances.
